

Land Use by Type and Soil Suitability

Soil Suitability for building purposes increases as the number increases, with Soil Suitability 1 being the least suitable.

Types of Land Use and Soil Suitability Profiles

-  State Road
-  County Road
-  Local Road
-  Streams
-  Sewers
-  Soil Suitability 1
-  Soil Suitability 2
-  Soil Suitability 3
-  Urban
-  Crop
-  Brush
-  Forest
-  Water
-  Wetland
-  Barren
